### Parent Pick Up Reminders and Clarification after 1st Day

1 file • JEREMY BOOKER • 15 hours ago • Tuesday, Aug 22 at 5:36 PM • **Blades Elementary School**

Good Evening Blades Family!

I want to thank everyone for a great end to our 1st Day. The students did a wonderful job and the staff were so please with how well everyone responded to being back in the building!

One thing I would like to quickly touch base on is in regards to parent pick up at the end of the day. Our process is very organized and structured to keep everyone safe as they drive to the back of the building and start to create the car rows. Our custodian Rick does a great job keeping everyone on track and lined up properly.

I know it is just the 1st day, but I feel the need to make sure everyone is on the same page on what our expectations are for parent pick up and what we need 100% of families to do to keep our students and staff safe...along with being fair to those who are parking in the rows before you arrive.

1. As you enter the back lot you will start making rows closest to the building where students come out. When your row is finished please start the next row. Pull up as far as you can and get as close as you can to the row to your right. **Please DO NOT try to create another row to the left if your row is not full.** This creates confusion and also increases the chance that another car may try to pull out and cause an accident. A staff member will tell you when to make a row.

2. Do not pull into a row that is already full. This blocks traffic and stops us from making new rows.

3. We dismiss the rows that were on the back lot first and begin making a second set of rows when they are gone. **Please DO NOT try to leave before your turn since this too increases the chance that someone will get hit or cause an accident.**

We know that everyone is very busy and wants to get home after picking up their child, but our systems are in place to keep everyone safe and secure while being extremely efficient. Our parent pick up is usually done by 2:50pm and is very quick. **One option is to always use our buses which are very safe and less hassle on your part.**

I've attached the 23-24 Arrival and Dismissal Procedures again for your reference. Please take a look and let me know if you have anymore questions.

Thanks
